Some Basic channels require digital equipment or a TV with a QAM tuner and some Expanded Basic channels require Charter leased digital equipment. To see which channels this applies, please visit the [channel lineup page](#) on [Charter.com](#) (under TV, TV Programming, Channel Lineup from the main page) to see which channels have a checkmark in the Digital column.

Due to system technology enhancements in a switched digital market, access to certain digital channels will require a receiver, as HDTVs equipped with CableCARDS cannot access certain digital channels requiring two-way communication. CableCARD customers with TiVo equipment not leased from Charter will also need a Tuning Adapter for access to such digital channels.

©2012 Charter Communications. Programming may vary. Channels, Tiers and Packaging subject to change. Services not available in all areas. SAP - Second Audio Programming (Spanish Language when available) is offered on analog Basic Service & Expanded Service channels. Check your interactive program guide for further details. Channel numbers listed are for either analog cable-ready TV sets or Charter digital receivers. Customers using a QAM tuner TV or other personal QAM tuner device, not connected to a digital receiver, must activate the Auto Program feature, as described in the TV/device's Owner's Manual, to receive some digital services. HD capable equipment is required to view HD programming (where available). All programming may not be available to CableCARD customers.
