

The Best of TV Meets The Best of the Web

Google TV with DISH Network

The industry's first true integration of television and rich Web media. Google TV combines the power of Google search and the unlimited content of the Internet with DISH Network service. Simply connect a Google TV box, such as the Logitech Revue™, to a compatible DISH Network DVR, and you're ready to experience DISH Network service in a whole new way.

WATCH YOUR TV, YOUR WAY.

Enhanced Google TV Experience

Instantly Find the Exact Content You Want to Watch

- Easily search thousands of listings across the Program Guide, DVR, DISH Cinema, and the Internet simultaneously
- Schedule recordings and purchase On-Demand videos directly from the search bar
- Search by program title, actor or subject
- Enjoy the familiarity of Google search navigation

Connect Your TV to the Internet

- Access Web content while still watching TV
- Easily perform any task on the Internet - look up information about the shows you're watching, view your fantasy team's stats, or check your email

Expand the Capabilities of Google TV

- Add a Logitech TV CAM for HD video calling or Logitech Alert™ digital video security system

Watch the Web on Your Big Screen

- Effortlessly find and view videos from the Web on your TV screen
- Centralize your media interaction - view/share pictures, listen to music, and watch videos

Customize Your TV Experience with Apps

- See what people are saying on Twitter, play games and more
- Coming Soon – Access thousands of apps in the Android™ Market

Set-up Easily

- No IR blaster required for set-up with DISH Network
- Automatic pairing to set top box and wireless Internet
- Continued use of DISH remote for TV and DVR functions
