

## Changing Remote Address

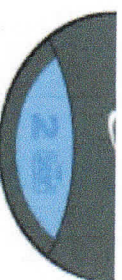

- 1) With TV1 remote, at your main TV, turn on the TV and the satellite.
- 2) Press Menu button twice. (Should bring up System Info Screen)
- 3) Look for the Secondary Remote Address number.

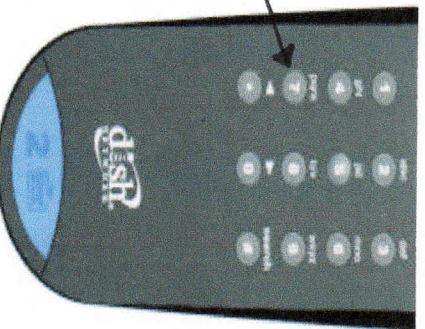

- 4) With TV2 remote, press and hold the SAT button until all the buttons on top light up red.

- 5) Release the SAT button and it should be flashing red or green.

- 6) Press a number that is different than the remote address on screen.

- 7) Press the # button.

## Changing Remote Address

8) The SAT button should now flash three times.

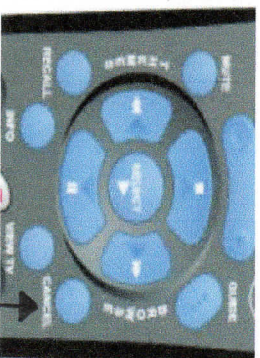

9) Press the record button.

10) The remote address on screen should have changed to the number you selected.

11) If the number did not change, go back to step 4. If the number did change, take the TV1 remote and press the cancel button until you exit the system info screen.

You have successfully changed your remote address.
