Brooklyn, New York, 11204

Dear Miriam,

Per our wonderful conversation with you at WION radio in Ionia recently, please find enclosed a check for \$500 toward the recovery of your organization and its clients following Superstorm/Hurricane Sandy.

The money was raised from a number of sources. Each year, our radio station re-creates the 1939 radio version of Charles Dickens' "A Christmas Carol" and sells CD's for charity, passing 100% through to the chosen cause of the year. (We don't take anything for materials or labor.) I produce the program, and all the actors work independently, none together, thus when it sounds like they are on "one audio stage", it's careful editing and hours of work.

This year, one third of the donations were raised through donations from WION friends we've never even met. Members of the website, "[www.satelliteguys.us](http://www.satelliteguys.us)" operated by Scott Greczkowski. The members of that site, of which I am one are a close-knit group of technology fans who help each other with projects from Satellite TV to home theatre, Computers, the internet, and more. A real community of polite online members who care. This year, Scott, the site owner allowed our worldwide debut of the production on his site at Christmas, and it was heard worldwide, even before our station began internet streaming. His members donated via paypal which was then passed on to us, and we, in turn sent copies of the CD's to them. GREAT thanks needs to go to them for caring and donating.

Together with WION's local family of listeners, we are proud that we could raise \$500 to assist.

Please accept our donation with thanks for your work, your caring for others, and know there are people in towns across the USA, Ionia included who may never meet the people you assist, but that care for others and are honored by your service.

With respect, and hopes of the donation helping your recovery,

Jim Carlyle, Owner WION Radio Ionia, MI  
[www.i1430.com](http://www.i1430.com)

and on behalf of the members of the "Satelliteguys" website
